

MicroLoan Foundation Zambia

MicroLoan Foundation Zambia (MLF Zambia) launched in 2008. Since then, it has been growing steadily, serving women in under reached rural communities where the demand is high.

MLF Zambia currently provides financial loans and savings services to clients across 14 branches, spread across the Southern, Eastern and more recently the Northern regions of the country. As of 30th June 2021, the outstanding loan book is \$1,326,430.

Agricultural input loans are offered to clients in its Chipata branch with the aim of expanding these services in the near future.

Mobile money services were adopted by MLF Zambia in 2017 where a pilot was launched for clients in the Chipata and Petauke branches. Since then, mobile money technology has been implemented across all branches and 90% of disbursements and repayments are now electronic. Reducing cash handling improves the efficiency of operations and makes it safer and easier for clients to run their business and access and repay loans.

MLF Zambia has now crafted its 5-year strategic business plan, aiming to significantly scale up its reach to clients and enhance its services through product diversification.

This product has a flat interest rate of 6% per month. It is designed to support women intending to start small businesses or to provide additional capital to those that are already in business. No collateral is required.

In addition to loans, MicroLoan facilitates savings among clients. As a non-deposit taking organisation, the clients are linked to third party providers for savings accounts. These savings are available to withdraw at any time required, with consent from the group.
