MicroLoan Zimbabwe News

Macroeconomic situation

The annual inflation rate in Zimbabwe decreased to 33.6% in the second quarter. A new currency backed by gold and foreign currencies was introduced by the Zimbabwe Reserve Bank. The aim is for Zimbabwe Gold (ZiG) to be more stable and help bring down inflation. At this stage the new currency will not impact MicroLoan Zimbabwe as the loan book is held in USD and the new currency will circulate alongside parallel foreign currencies.

State of Disaster

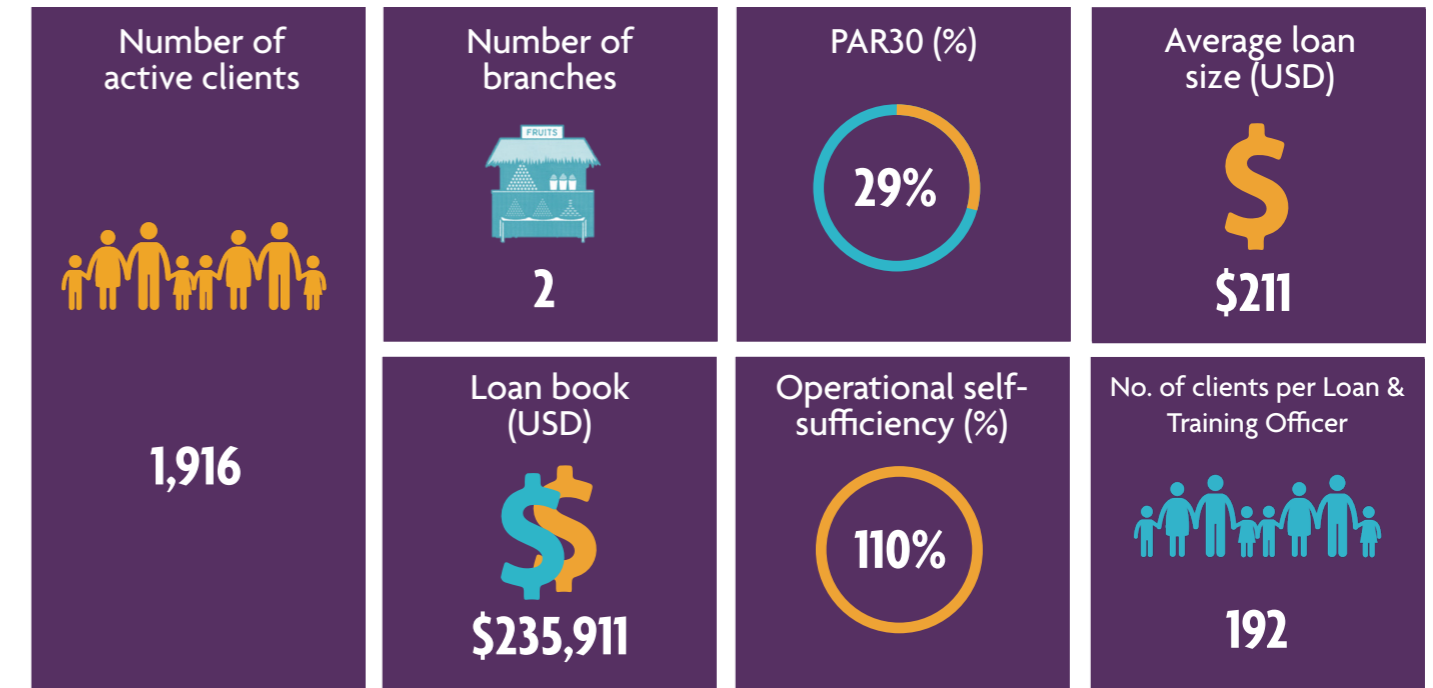

The second quarter of 2024 was challenging. Zimbabwe is among the worst hit countries by the El Nino induced drought in Southern Africa.

According to the government, this is Zimbabwe's worst drought in 40 years. This was reflected in serious decrease in quality of portfolio and clients are supported on an individual basis to manage their finances and businesses through the crises.

Expansion into new area

In line with our expansion plan, MicroLoan Zimbabwe is preparing to start a new branch in Rusape, located approximately 200km outside of Harare. Three new trainee Loan & Training Officers are currently undergoing a four month trainee programme. They will be moving on to the new branch, set to open in the third quarter of 2024.
